

HAS YOUR CHILD RECEIVED THE H1N1 VACCINE YET?

The 2009 H1N1 flu (sometimes called “swine flu”) can be a serious disease for people of all ages, especially children.

Stay healthy by getting your family vaccinated.

Remember: Children 9 years and younger require two doses of the H1N1 vaccine, administered at least 28 days apart, to be fully protected against the H1N1 virus.

The 2009 H1N1 flu vaccine is available for Albany County residents, free-of-charge, at the Albany County Health Department, 175 Green Street, Albany

Call (518) 447-4505 today for an appointment.

(Phones are open Monday—Friday, 8:30am—4:30pm)
