

CLASS RANKING

In order to provide information which students may be required to submit to colleges or employers and to recognize the district's highest achieving students, a rank in class will be computed according to established regulations (4741-R) for each student completing grade 11 at Shaker High School, or those Shaker High School Students who have declared by the end of the sophomore year to be a three-year graduate (Policy 4770#7A).

The top five percent of each graduating class will be designated honor graduates.
