

Request for Pesticide Application Notification: Employee

New York State Education Law, Section 409-H, effective July 1, 2001, requires all public and non-public elementary and secondary schools to provide written notification to all persons in parental relation, faculty, and staff regarding the potential use of pesticides periodically throughout the school year.

The North Colonie Central School District is required to maintain a list of persons in parental relation, faculty, and staff who wish to receive 48-hour prior written notification of certain pesticide applications. The following pesticide applications are not subject to prior notification requirements:

- A school remains unoccupied for a continuous 72-hours following an application;
- Anti-microbial products;
- Non-volatile rodenticides in tamper resistant bait stations in area inaccessible to children;
- Non-volatile insecticidal baits in tamper resistant bait stations in areas inaccessible to children;
- Silica gels and other non-volatile ready-to-use pastes, foams, or gels in areas inaccessible to children;
- Boric acid and disodium octaborate tetrahydrate;
- The application of EPA designated biopesticides;
- The application of EPA designated exempt materials under 40 CFR 152.25;
- The use of aerosol products with a direct spray in containers of 18 fluid ounces or less when used to protect individuals from an imminent threat from stinging and biting insects including venomous spiders, bees, wasps, and hornets;

In the event of an emergency application, necessary to protect against an imminent threat to human health, a good faith effort will be made to supply written notification to those on the 48-hour prior notification list.

If you do **not** wish to receive 48-hour prior notification of herbicide/pesticide applications that are scheduled to occur in your school, please check here and legibly sign your name _____.
