It should be noted that the bid submitted contains an addendum (copy attached) stipulating that price increases will be passed along to the district (with proper documentation) due to the inherent volatility in the petroleum products market place. Given recent price history, this seems reasonable.

Recommendation:

It is recommended that the bid for lubricants/fluids be awarded to Farrell Oil, the low bidder meeting specifications, in an estimated amount of \$17,385.09 for the 2011-2012 school year.
