

Locker Organization

- ◆ *The lockers at SJHS are 9 inches wide x 70 inches long with one shelf at the top of the locker. This makes them very difficult to organize!*
- ◆ *We recommend that you purchase a locker ladder to organize your books and supplies. Locker ladders are designed to fit the narrow dimensions of these lockers and are available for purchase at the school store.*

Using Your Locker Ladder

- ◆ *The locker ladder provides you with three additional shelves in your locker on which to store your books.*
- ◆ *Students in the past have found great success with using a locker organization system that groups books by class period.*
 - ◆ *Shelf #1 – Books for your classes during periods 1,2,3*
 - ◆ *Shelf #2 – Books for your classes during periods 4,5,6*
 - ◆ *Shelf #3 – Books for classes during periods 7,8,9*
- ◆ *Of course you may want to adjust this to your own particular schedule...*
- ◆ *You may also find it helpful to put labels on the inside door of your locker to help you identify where each notebook, folder, and textbook belongs.*
- ◆ *These systems will make it much easier for you to switch books between classes!*
