

TRANSPORTATION FOR NONPUBLIC SCHOOL STUDENTS

As provided for in State Education Law, the district will provide transportation for resident nonpublic school students, attending such schools out of the district, to a maximum distance of fifteen (15) miles. (Mileage is measured from the student's home to the school legally attended.)

In the case of district students attending nonpublic schools beyond the fifteen-mile limit, transportation may be provided if:

- A. the district regularly transports students to the private schools in question;
- B. the district central office receives notice, prior to April 1, that such transportation is desired for the following school term; and
- C. that such students are taken to and from pickup points within the fifteen-mile limit, and as designated by the school district authorities, through private and individual arrangement and responsibility.
