REMOTE LEARNING

OUR FOCUS:

We want to give all students the opportunity to learn new material during this challenging time. We just ask that everyone try their best. We are proud to be your partners in this endeavor and we are here to support you as we navigate our new reality together.

SET A SCHEDULE:

We understand everyone's schedule will look different during this time. Following some sort of schedule each day may be helpful for your routine. Be sure to include breaks to get outside, for snacks and just some time to be together.

GRADING:

Grades for students and awarding of course credit must be aligned with guidance from the NYS Education Dept. and our school district policies. During this time, all students will receive feedback on all work but will not be graded for their work.

TIME EXPECTATIONS PER WEEK:

- **K-2:** 3-4 hours total
- **3-4:** 5 hours total
- **5-6:** 7.5 hours total
- **7-8:** 1.5-2 hours for each core subject and 1 hour for each special area subject
- **9-12:** 2.5-3 hours per credit bearing course

CONNECT IF YOU NEED HELP:

If you have any questions or need help, please contact your child's school principal, counselor or teacher to help guide you. We are here to help.

VIDEOCONFERENCE BASICS:

- Mute when you are not talking
- Take turns when talking
- Be on time
- Act as if you were together in a room at school
